Engineer Says He Remained at Post Until His Successor Arrived.

Seventh precinct, has resigned to ac-cept a commission in the Greek navy as lieutenant aboard one of the battleships which the Greek government pur-chased from the Navy Department. W. L. Crain, who recently resigned as chief engineer at the Home for the Aged and Infirm, in a statement last night characterizes as false the charges made that he closed and left the power house at the home without turning over the plant to his successor. He simo states that the resmons given for his resigna-tion are absolutely false. "It was not because my friend Mr. Ward was transferred from the laundry and reduced in salary that I left the o home," said Crain, "but because of a

To Overcome Sunburn, Tan, Freckles, Wrinkles

If your skin is unduly reddened, freckled or tanned, dab a liberal amount of mercolized wax on the face and allow it to remain overnight. When you wash off the wax in the morning, fine, flaky, almost invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually there's not the slightest hurt or inconvenience. Even the stubbornest freekies are affected. The underlying skin which forms the new complexion is so fresh and youthful-looking, you'll marvel at the ransformation. It's the only thing known to actually discard an aged, faded, muddy, or blotchy complexion. One cance of mercolined wax, procurable at any drug store, is sufficient in most cases. mercolized wax on the face and allow it

If sun and winds make you squint and frown, you're bound to cultivate wrinkles and crow's feet. To overcome these quickity, baths the face in a solution made by dissolving an ounce of powdered saxolite in a half pint witch hazel.—Adv.

"Farmer Jim" Wadsworth Comes Out as Candidate for Senator's Toga.

NORMAN E. MACK IN RING

Doubted, However, that Mr. Wilson Who Is "Bossing," Would Stand for Democratic Chairman.

By FRANCIS B. GESSNER. New York, July 2.—The splendid indif-ference of the New York Republican organization headed by Chairman Barnes, to anything and all things happening at Oyster Bay, is the most cheering feature of the impending State campaign Each day sees Chairman Earnes in con-ference with big local leaders from up-State and the word has gone out to simply go ahead in the good old way as if there was no Progressive party or a self-appointed leader of it and make sure of stiffening up the organization in every county that can be counted on for an old-time Republican majority.

The governorship was little discussed in the gatherings of this week partly bein the gatherings of this week partly be-cause of a general concession that Whit-man has been picked in advance, and partly because the absolute declination of Root brought the Senatorial candidates into the arena with considerable

The impression prevails among the faithful who gather in roof garden con-ferences this week that the Senatorial nomination will go up-State and the very prompt response of James W. Wada-worth from away down in Texas Indicating first his regret that Root could not accept, don't you know, and then quickly anouncing a willingness to take sold at once, was viewed with varied

Wadsworth a Small Man. The chief lament was that Wadsworth

has never figured in a big way and has held few places of honor. He achieved some local distinction as speaker in the legislature, but has hardly had the prom-inence in State politics that has been won by several members of Congress including Calder, his chief competitor in the Senatorial race. It is said on behalf of Wadsworth that he comes of a dis-tinguished family and that he is a man of wealth. His absence from New York at this time is due to his big business interests in Texas, and he has long been identified with big corporate and bank-ing affairs up in the Geneseo region of New York State.

The New York Republican managers

are ever careful in the final selection of a candidate for any high office, and they are inclined to favor the citizen bleased with kopecks, all else being satisfactory. The wealth and general business ability of Wadsworth will be much in his favor, not only with the organization leaders, but with the business voters up-State as well as in Manhattan. Nor is it over looked that he counts himself a real farmer, thanks to his actual operations on several hig farming tracts in the re-gion round about Geneseo town not far from the territory that has been sending Sereno Payne to Congress for over thirty

"For Farmer Jim."

Indeed, Wadsworth can declare himself a farmer and pose as the one actual farm candidate for Senator in many

For Farmer Jim, of Geneseo," can be the battle cry of the Republican hosts once the word passes from Barnes head-quarters to line up for the rising young man who, if chosen, would be the youngest Senator sent from New York in many years. Somehow there seems an inclina-tion in New York for the younger element this year, and every candidate yet mentioned by the Republicans for governor or Senator is younger than the average.
For that matter, Gov. Glynn, the pres-

ent Democratic governor, who will be renominated, is a young man, and while there has been no intimation as to who be the Democratic nominee for Senator, the prospect is good for a final choice of some young Democrat from Manhattan rather than up State. Once the Hon. Jefferson Levy Indicated that he would not venture into the Senatorial running. preferring to continue in Congress, there was talk of Hon. Norman E. Mack, the Buffalo editor and Democratic chairman, who for some unexplained reason has never impressed@himself very much on the Democratic administration at Washiung-

ANACOSTIA BOYS MUST

Some Provision Is Made Since the work of reclaiming the Ans can go in bathing. A few weeks ago the Anacostia Citizens' Association pro-posed having swimming pools estab-lished in the reclaimed area for the boys' use. This was referred to the United States Engineer's office, but as yet no definite action has been taken. Those in terested in this movement are anxious that a favorable decision be reached, a arrangements for these pools can be made at this time, with but very little expense while at a later time the expense

be much greater.

The Public Utilities Commission is considering the question of ordering two extensions of street railroads, one from Anacostia to Benning, by way of Good Hope and other suburbs in that section, and the other from the present terminus of the line in Congress Heights along Nichols avenue to the Steel Plant road The first named would serve a larger number of persons, and those interested are at a loss to know why some decision has not been reached. It is believed that the Congress Heights extension will be
